

THE REIGATE SOCIETY

REPORT No, 30 A TRANSPORT COMMITTEE REVIEW

November 2011 REPORT to Reigate Society (RS }Council.

Copies of all RS Transport Reports are available for members inspection, comment and any necessary revision. Alternatively a memory stick can be supplied so that reports can be viewed on computer.

Our Borough's core strategy consultation closed on the 11.11.2011.

After discussions with members it was agreed that a response should be made and REPORT No. 28 was drafted and submitted together with copies of Reports No. 27 M for T Gatwick Expansion Consultation, No. 25 Waste Disposal Logistics and Climate Change, No. 5 LEP and Conflicting Objectives (updated), attention was drawn to the Summary Report No. 7, and RS Tr. **No. 11** minutes. All for consideration in conjunction with the review of the Borough's CORE Strategy.

The GREEN BELT (Proposed Change No. 2)

At members request our response and reasoned opposition to green belt change are:-

- To prevent the inordinate Transport and Urban Growth of London and other Towns.
- To check the growing together of Towns.
- To provide a recreational area for Greater London and other urban Residents.
- That Development should be on Brown Field sites.
- That if the Boroughs Transport access needs detailed in RS Reports No. 5, 7 and 11 are to be ruled out White Land close to ports should be considered as an alternative for **the Government low cost export led growth objective.**

John Chittenden
